Sir,

In the attached query as received from Shri Vinod Harbala from Kartaka, the following queries have been requested to be answered by CPPRI by MoEF, who have already given the answers to point 1.

2. Previous three year state wise data on wood pulp produced by the state organizations authorized to harvest forest resources in In India.

In the above context the following reply is submitted please

*CPPRI does not receive/collect any data from any paper mill regarding the production of pulp in the individual units.*

*With Regards*

It's OK to print this e-mail, in case you need it. Paper and Paperboard is a biodegradable, renewable, sustainable product made from planted trees .Growing and harvesting trees provides jobs for millions of people. Working forests support the environment, providing clean air, clean water through increased rainfall, wildlife habitat and carbon storage. When you are through, please remember to recycle it.
